

# The Source Launches New “Provider Rate Regulation” Interactive Key Issue Pages

The Source on Healthcare Price & Competition is thrilled to announce the launch of the newest interactive key issue pages in [Provider Rate Regulation](#). Along with a report published in [Frontiers in Health Services](#), this series of key issue pages aim to provide state policymakers with a roadmap of effective strategies to address rapidly increasing prices.

In many markets, where existing competition are insufficient to constrain the pricing power of dominant insurers and providers, policymakers need to consider options to directly limit the unrelenting increase of healthcare prices that threatens the affordability of health care for Americans. With support from [Arnold Ventures](#) and months of research and design, we identified a spectrum of seven options for states to place pressure on or directly control healthcare prices:

1. [cost-growth benchmark](#)
2. [public option](#)
3. [out-of-network rate cap](#)
4. [affordability standards](#)
5. [hospital global budgets](#)
6. [rate setting](#)
7. [population-based payment](#)

Navigate to each individual policy option page for additional information including:

- A Q&A overview
- Implementation map of states
- Comparison chart of state experiences
- Reading list

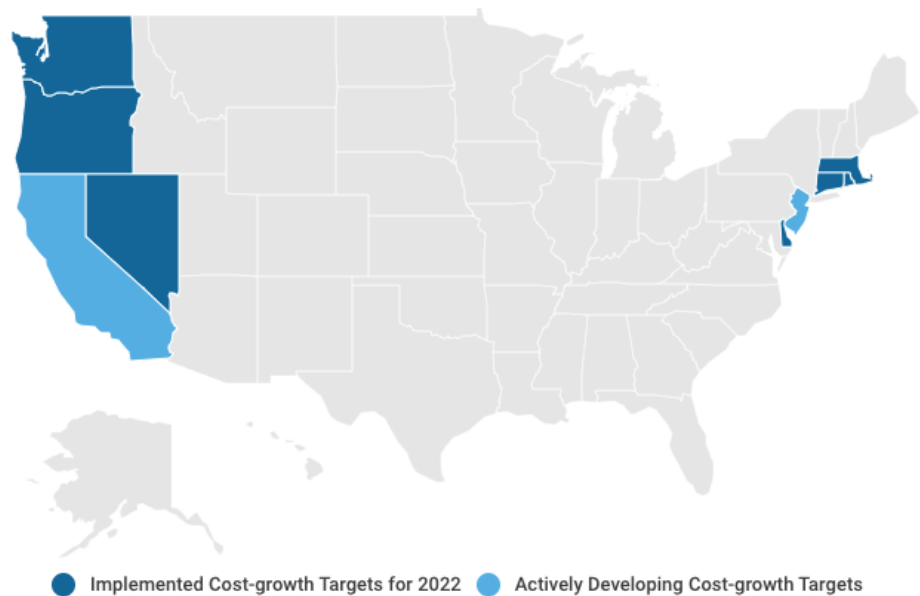

# Cost-growth Benchmark

Q&A

Implementation Map

State Comparison

Reading List

	State	Implementation Status	Mandate Type	Authority
	<a href="#">Massachusetts</a>	Implemented cost-growth target for 2022	Legislation	<a href="#">Mass. Gen. Laws ch. 6D §9 (2013)</a>
	<a href="#">Delaware</a>	Implemented cost-growth target for 2022	Legislation	<a href="#">Executive Order No. 25 (2018)</a> ; <a href="#">H.B. 5506 (2022)</a> ; <a href="#">budget bill</a>
	<a href="#">Rhode Island</a>	Implemented cost-growth target for 2022	Executive Order	<a href="#">Executive Order No. 19-03 (2019)</a>
	<a href="#">Connecticut</a>	Implemented cost-growth target for 2022	Executive Order	<a href="#">Executive Order No. 5 (2020)</a>
	<a href="#">Oregon</a>	Implemented cost-growth target for 2022	Legislation	<a href="#">S.B. 889 (2019)</a> and <a href="#">H.B. 2081 (2021)</a>
	<a href="#">Washington</a>	Implemented cost-growth target for 2022	Legislation	<a href="#">H.B. 2457 (2020)</a>
	<a href="#">Nevada</a>	Implemented cost-growth target for 2022	Executive Order	<a href="#">Executive Order 2021-29 (2021)</a>
