

The Source Founder Jaime King Discusses The Trials and Triumphs of Health Care Antitrust Law on NEJM

The NEW ENGLAND
JOURNAL of MEDICINE

In a *New England Journal of Medicine* article and accompanying interview, The Source Founder and Distinguished Fellow [Jaime S. King](#) provides an overview of the history of healthcare antitrust law and enforcement and discusses the functions of antitrust law and the effects of health care consolidation on prices, quality of care, and access to care. The perspective piece asserts that combining competitive and regulatory forces may offer the only hope for controlling health care prices, restoring high-quality care, protecting health care workers, and preserving and expanding access to care.
